

# IN THE THICK OF THE STORM

## THE APOCALYPTIC YEARS OF 2017 TO 2033

### A MOST LIKELY SCENARIO

BY RAYMOND CHARLES JOHNSON

In order to appreciate a most likely scenario of the events which are soon to unfold, one has to go back about three and a half centuries to a convent in a small town among the rolling vineyards of Burgundy. A young nun, Sr Margaret Mary Alacoque, communicated to the King of France that Jesus desired that France be consecrated to His Sacred Heart and that an image of His Sacred Heart be inscribed on the national flag. If the King would do so, the King was promised success in his endeavors and victory over his enemies. The King did not do so. His reign and the reign of his successors experienced a succession of military failures, deepening debt and onerous taxes. One hundred years later, to the day, the French Revolution began.

In 1917, the Madonna spoke a secret to three shepherd children in Fatima, Portugal. Lucy, the eldest, later made a request of another sovereign, the pope. She asked for the consecration of another country, Russia. Similarly, that country was not consecrated. The negative consequences of that failure and the most likely timeline on which they will occur are the subject of this book.

The lead character in this book, Professor Catherine O'Brien, is fictional. The rest of the story is largely based on fact. Lucy could be called the greatest prophet in the last 2000 years because she forecast the time and place of the Great Miracle of the Sun three months ahead of time. There are other prophecies which are congruent with Fatima. Catherine reconstructs the Secret and weaves her way through a forest of prophecies about cataclysms, civil war in Europe and the rise of a Great Monarch in France to construct a *Most Likely Scenario*.
